Really nice casual game, those that live close to the beach can relate to (typical annoyances are not missing). You want to steam off from so many cheaters out there lurking around triple A games? Say no more, this is your game! You fight your way as a lifeguard, controlling no one drowns on your watch and beach rules (shown at the start of each round) are enforced, you win points depending on how well you can cope with everything and at the end of the day you can get some extra help with your winnings.. Really nice casual game, those that live close to the beach can relate to (typical annoyances are not missing). You want to steam off from so many cheaters out there lurking around triple A games?
